What is PoliceLifeS?

POLICELIFES

PoliceLifeS.de is actually a plugin for the Grand Theft Auto V LSPDFR modification. PoliceLifeS brings more reality to your game experience.

FEATURES

SECURITY

WHAT IS STORED/TRANSMITTED?:

We want to make everything transparent, what information are received.

Website:

- PoliceLifeS **doesn't** save the Location, IP address or other personal data.
- PoliceLifeS save all Passwords with 256Bit AES Encryption! (Only you know the correct Password).

In-Game:

- We transmitted is Player arrested someone.
- We transmitted the current Duty State, Player is On-Duty/Off-Duty.
- We transmitted the current running callout

CONTROL PANEL

We have our own online Control Panel, each player can create his own profile

The Control Panel has currently not many functions but I have many functions in Planning e.g. a house system, car System, statistic how many people were arrested and more.

HUNGER SYSTEM

To stay alive you need to eat, we have created on the map eat stations where you can fill your life.

VEHICLE GAS TANK SYSTEM

Each vehicle has its own fuel tank, the tank is stored in a local database after restarting GTA it is therefore still present

There are petrol stations on the map where you can fill up your vehicle tank

The faster you drive the more fuel you consume

You have now the choice what you want for a Texture and the Texture - position, read the GTAV/Plugins/LSPDFR/PoliceLifeS/PoliceLifeS.ini file for more information!

RANK SYSTEM

If you successfully complete tasks then you get experience points, your rank you can view on our website

so when you arrest a person you get Experience Points

Later features are available only with a certain rank

SHIFT WORK SYSTEM

You can now start your shift work, the shift is 8 hours (30 Min. reallife time) if you die, your shift is canceled

If you survive the time then you get Exp. If you arrested more criminals then you get more Exp.

To get Exp you must be logged, read the PoliceLifeS.ini file

(GTA V/Plugins/LSPDFR/PoliceLifeS/PoliceLifeS.ini)

The starting point is marked on the map were you can go Onduty

MONEY SYSTEM

You have now your own Money System, when you press Capslock you can see your money.

After a shift work you get 75-800\$.

You can buy something soon with your money, this is in development

SPEEDOMETER AND GAUGE FUEL

The speedometer is in KM/H, 1 KM/H ~ 0,62 MPH

How to install PoliceLifeS

Visit <https://policelifes.de>

And click on the blue button called DOWNLOAD HERE

Okay, lets install PoliceLifeS together!

Go in your GTA V directory

Okay, well done, PoliceLifeS is installed!

Lets connect your game with PoliceLifeS

Go back to the website and register your account

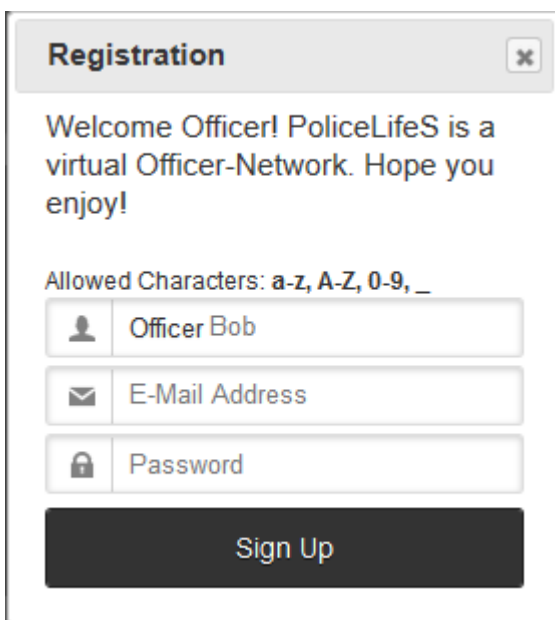

A login form with a dark background. It features two input fields: the first is labeled 'Officer Bob' and the second is labeled 'Password'. Below the fields are three buttons: a blue button labeled 'User Exits? Sign In', a dark grey button labeled 'Forgot Password?', and another dark grey button labeled 'Sign Up'.

Click on the button called "SIGN UP"

Enter now your login credentials like your name, email and password

You got an Email Verify from us. Open that mail and verify your account.

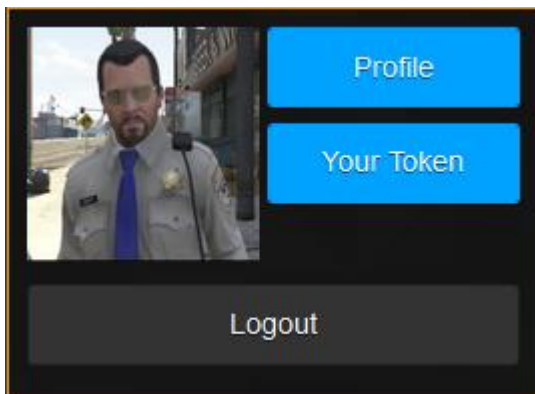

A registration form titled 'Registration' with a close button (x) in the top right corner. The form contains a welcome message: 'Welcome Officer! PoliceLifeS is a virtual Officer-Network. Hope you enjoy!'. Below the message, it lists 'Allowed Characters: a-z, A-Z, 0-9, _'. There are three input fields: 'Officer Bob' (with a person icon), 'E-Mail Address' (with an envelope icon), and 'Password' (with a lock icon). A dark grey 'Sign Up' button is at the bottom.

Login now with your entered login credentials

After you are logged in you will see this box

POLICELIFES GUIDE

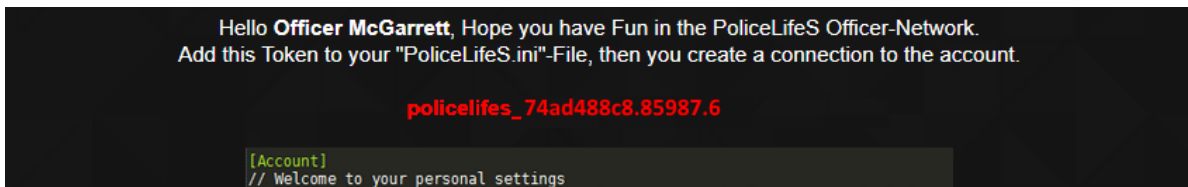

Now lets get your police officer token!

Click on "YOUR TOKEN"

A new windows blipped up.

As you can see a **red** text. This is your police officer token. You need it!

Copy the **red** marked text

Go to your GTA V main directory

Double click the PoliceLifeS.ini with your editor. I am using Notepad++

```
[Account]
// Welcome to your personal settings
// Enter here your userAuthToken if you have no account then you can do it here http://policelives.de (Like policelives_XXXXXXXXXXXXX.XXXXXXXXXX)
userAuthToken=
online=true
```

We need the Account section.

As you can see there is written: userAuthToken=

Paste your Police Officer Token behind userAuthToken=

It should look like this **userAuthToken=policelives_58b5a19915o6c8.03718975**

Well done Officer! You can start the RageHookPlugin now and go on Duty! You will be automatically connected with PoliceLifeS when you go on Duty. Don't forget to start your Shift on the next \$ sign on the map.

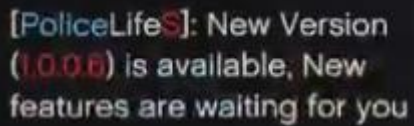

POLICELIFE S GUIDE

Lets check your connection to PoliceLifeS

Open your Ragepluginhook and start LSPDFR.

Go to a police station and go on duty.

If you get on duty your version will be checked automatically for up to date

[PoliceLifeS]: New Version
(1.0.0.6) is available, New
features are waiting for you

Is a newer version available the checker will inform you

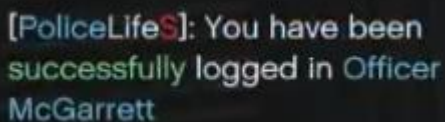

Lets check the connection

[PoliceLifeS]: Please wait ...

Your game is connecting right now

If you entered your token correctly, you should be connected now to the PoliceLifeS Servers

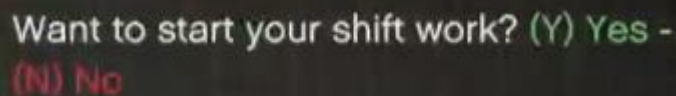

[PoliceLifeS]: You have been
successfully logged in Officer
McGarrett

For the last I will show you to enter a shift work and how you can find gas stations or something to eat

Go to the \$ signs on your map to start the shift.

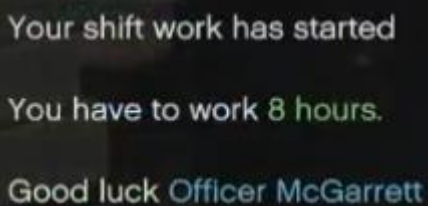

Now this will appear on the top in the left corner

Want to start your shift work? (Y) Yes -
(N) No

Press Y to start your shift

Your shift has started, it will end in 8h (30 minutes of real life time)

Your shift work has started
You have to work 8 hours.
Good luck Officer McGarrett

How to find something to eat and to refill my vehicle?
